B CLASS E. BRANCH

Subject:—

Territorial Changes -
Dharwar Division;
Formation of a new sub-divisi
Called The Hubli + Irrigation
Sub-Divi

File No. 3917/36 E.B.

Std. Scott. Slip 24-B

Finance Department.

Before sanctioning a reappropriation from the provision of Rs. 6 lakhs made for new works and works in progress under the minor head "Spl. Dev. Programme" under the major head "18-A Irrign. Works-Civil" it is necessary to know whether the provision will be sufficient to meet -

(1) allotments already sanctioned by Govt.,

(2) allotments which will have to be sanctioned in future to complete works which were started in previous years, and

(3) allotments which Govt. would like to sanction hereafter on new works to be started during the current year.

Besides, since it is a lump provision, it should be spent for purposes for which it is made and should not ordinarily be diverted for other purposes. In the present case, Govt. have already issued orders sanctioning the addl. temporary estt. in connection with repairs to minor irrigation works in the Kanara & Belgaum Divns. upto 28-2-41. The charge* is debitable to the minor head "Estt" and the necessary allotment to meet the charge will have to be sanctioned in due course. This Deptt. may raise no objection if the charge in the present case is met by reappropriation from the minor head "Spl.Dev.Programme". But, before this is done, it is necessary for the R.D.to ascertain that sufficient savings will be available in the minor head "Spl. Dev.Programme" after meeting the expre. on items (1) to (3) above. If reappropriation in this and other similar cases is sanctioned, we may have to supplement -

*It seems that the cost is about Rs. 4,000.

supplement the provision made in the minor head "Spl.Dev.Fund" to meet expdre. on works of an urgent nature which cannot be postponed till next year. This should obviously be avoided. It is too early in the financial year to inform the S.E., S.C., that the extra cost involved in the present case should be met by reappropariation from the minor head "Spl. Dev. Programme". The memo. on p. 43 need not issue now. The question of source may appropriately be considered later after the 8 monthly revised estimates are known.

2 It is presumed that the R.D. has kept a note of all orders issued so far sanctioning allotment of funds from the lump provision of Rs. 6 lakhs. It is necessary for R.D. to ascertain what amount will have to be sanctioned hereafter on works which were started in previous years. This will enable us to know the balance available to meet expdre. on new works to be started during the current year for which no allotments have yet been sanctioned by Govt. The R.D. may be requested to state very urgently what this balance will be, Otherwise, it will not be possible for F.D. to agree to large allotments being sanctioned on works to be started during the current year. The R.D. may as well drew up a programme of new works, stating the allotment required for each work during the current year, so that Govt. may decide which works should be given priority.

3. The papers may be referred back to the R.D. for further consideration with reference to the points raised above.

Id.
8/10-6-40
U.S.

U.S. I should like R.D. to compile information regarding (1) and (2) in para. 1 in the first instance. We shall then see what could be done as regards (3).

Id.V.S(hankar),
10/6/40

u.o.r. to R.D., dated 10th June 1940.

PVK 24/6

Finance Department.

Submitted with reference to D.S.'s note dated 10-6-40.

2. As re: (1) in para. 1 of o.n.dated 10-6-40, the R.D. states that the expenditure so far sanctioned from the lump provision of Rs. 6 lakhs amounts to Rs. 1,26,519. Besides this, allotments aggregating Rs. 2,75,805* have been applied for by the local officers and are being dealt with separately.

*includes Rs.26,260 for new works.

3. The R.D. has not furnished the information re: the allotments that are yet to be sanctioned for works in progress. That Deptt. states in para. 3 of its note that a lump provision of Rs.6 lakhs was made in the budget against the estimated requirements of Commrs. of Dns. amounting to Rs. 10 lakhs. But how much of the estimated requirements was meant for works in progress alone has not been stated. As the practice of making lump provision in the budget is irregular the R.D. was requested in Novr. 1939 to give detailed information in regard to the estimates of the current year on the lines of D.S.(Mr.Bolton's) note dated 28-11-39. But that Deptt. could not then do so as the replies of departmental officers in the matter were not received in time. Consequently, a lump provision was made in the budget. The information now furnished by the R.D. in para. 3 of its note is of no avail. What is required is the distribution of the lump provision of Rs. 6 lakhs made in the budget. The R.D. has at present been sanctioning allotments for minor irrigation works piecemeal as and when they are asked for by the Ex. Engrs. If the expenditure is to be restricted to the amount of Rs. 6 lakhs provided

in -

in the budget, the procedure at present followed by the R.D. will result in allotments being refused to the Ex. Engrs. who arelate in approaching Govt. in the matter. Instead of adopting the policy of "first come first served" the better plan will be to select works which should be given preference. Accordingly,the R.D. may first be requested to give a list of works in progress and state therein the allotments yet to be sanctioned during the current year (in addition to the allotments already sanctioned by Govt. for new works and works in progress).

4. It is possible that the provision of Rs. 6 lakhs will be barely sufficient (or even insufficient) to meet (1) the allotments so far sanctioned for new works and works in progress and (2) the allotments for works in progress that willbe sanctioned here-after. The minor irrigation works are financed from Special Dev. Fund. Still, in view of the situation created by the war, we may for the present attempt to restrict the expenditure on minor irrign. works to the amount of Rs. 6 lakhs provided in the budget. Until the information called for in para.3 above is compiled, we will not know what the balance available for new works is. The R.D. may, therefore, be informed that no allotments for new works may be sanctioned until the information called for in para. 3 above is compiled.

Id.
21-6-40.

D.S.(Budget). I think it is absolutely necessary that R.D. should keep expre. within the budget grant of 6 lakhs. It seems that the expenditure sanctioned upto-date comes to 1,26,519 and the expre.

expre. required for some works in progress is about 2,50,000. That means that we are already committed to an expre. of 3,75,000 but of 6 lakhs and the balance available for further expre. is 2,25,000. I think it is absolutely necessary for the scrutiny of further proposals that we should know what the total amount required for works in progress will be. It is obvious that expre. on new works will have to be restricted to the balance after meeting the expre. on works already sanctioned and works in progress. R.D. may be requested to compile the information as regards latter as soon as possible, and not to sanction allotments for new works in the meantime.

2. The letter from the S.E.,S.C. is self-explanatory. The Ex.Engr.,Dharwar Dn. reports that the total amount to be spent on repairs to Irrign.works will be Rs 92,000, which amount is more than that spent by the defunct Dharwar Irrign.Dn. and that the addnl.work involved cannot therefore be managed without an increase in estabt. The S.E., S.C. therefore requests sanction

(a) to open a new sub-dn.to be called the Hubli Irrign.Sub-dn.with head-qrs. at Hubli.

(b) to distribute the works as shown in para.3 (1) and (2) of the letter between the two sub-dns. viz. Haveri and Hubli Irrign.

(c) to rename the existing Hubli Sub-dn. as Hubli (Roads & Bldgs.) Sub-dn.

(d) to entertain the tempy.estabt.as detailed on p.7 ante with effect from the 1-10-39 to the 28-2-41 in the first instance.

3. The Commr.,S.D. supports the S.E's proposal but states that the new Sub-dn. may be created for 5 months with effect from the 1-10-39 instead of 17 months as proposed by the S.E. For the reasons given, the Commr. suggests that 87 tanks in the Karajgi Taluka may be retained in the Haveri Sub-dn. and need not be transferred to the Hubli Irrign.Sub-dn. as proposed by the S.E. As it is an administrative question, the opinion of the S.E.may perhaps count.

4. The S.E.,S.C.states that the estabt. proposed is the barest minimum. In

accordance with G.R.(F.D.) No.1787/36, dated the 14-8-36, the revised rates of pay of peons at Hubli are as under:-

Peons Rs 14, Rs 13.
Chowkidar Rs 13

Two peons one on Rs 14 p.m. and the other on Rs 13 p.m. and the chowkidar on Rs 13 p.m. may accordingly be sanctioned. The strength of the inferior servants in the Sub-dn. corresponds to the strength in the ordinary sub-dn. The remaining estabt., t.a.etc. proposed do not call for any remarks.

5. It is accordingly for consideration whether the Hubli Irrign. Sub-dn. may be created with effect from the 1-10-39 for a period of 5 months, as suggested by the Commr. and the S.E., S.C. may be requested to ask for the sanction for the continuance of the sub-dn. during the next year, if considered necy.; if so, the pays of the inferior servants may be as proposed above. It is also for orders whether the 87 tanks in the Karajgi Taluka may be retained in the Haveri Sub-dn., as suggested by the Commr. or transferred to the Hubli Irrign. Sub-dn. as proposed by the S.E. The extra cost involved will be met from the amount of Rs 7,46,300 sanctioned during the current year under 18-A-Civil(Spl. Dev. Programme) in u.o. consultation with the R.D. and the F.D.

(Circ 1 B to A B)

BKR. 15/9

15/9/39

18

There does appear to be a good case for strengthening

the staff but it is for consideration whether the work cannot be managed by appointing two additional overseers and a clerk. This way prove insufficient but may be tried for the first five months. The overseers should & think get sufficient T.A. & the S.D.O.s T.A. suitably increased.

18.9.38

I am inclined to favour the S.E's proposals as slightly modified by the Comm SD. The proposal of the Dy. Secy. (I.R.) would certainly provide a small addition to the staff. Even if the S.E's proposals are well considered, as they appear to be, would be totally inadequate, & would result in still further reworking the already reworked executive staff from the Ex. Engr downwards.

The tendency to give the Main this Dept. to undertake more and more they can properly carry out efficiently is to be opposed. Practically every member of this Dept. is now heavily reworked, yet additional duties are being added daily.

The S.E's proposals, strongly supported by the Comm., are reasonable & may be accepted.

19/9

S. E's proposal, as recommended by the Commissioner S. C, to open a new Subdivision to cope with the work of repairs to old tanks, shd be accepted. The repairs to these old tanks in Dharwar is a technical job & entails a considerable amount of work as compared to its cost. The works are small & scattered & every small work is an item in itself. To avoid confusion & get a full return of money spent on the works, the creation of a new Subdivision is desirable. As pointed out by the Comm^{r}. the creation of a Subdivision does not entail any more expenditure than what was being spent in the past years. The proposal shd be approved

Containing RD
& Ors of April 1939
Pp 13-15

Finance Department.

Please see the orders issued in the R.D. Resn. No.7950/33 dated 6th April 1939. It has been laid down that the Commrs. of Divns. are responsible for making budget estimates of the cost of repairs to minor irrigation works and should consult the S.Es. where repairs are to be carried out through the agency of the P.W.D. From the S.E.'s letter p.1 it will be seen that Govt. have sanctioned this year an amount of Rs.1,49,724 for works to be executed through the agency of the P.W.D. Out of the above allotment it has been proposed to spend Rs.60,000 for repairs to irrigation tanks in the Dharwar Distt. The total allotment to be spent this year on repairs to irrigation works comes to Rs.92,000 including the sum of Rs.32,000 placed at the disposal of the Ex. Engr., Dharwar Division. This amount of Rs.92,000 is more than what the defunct Dharwar Irrigation Division used to spend every year and consequently for the reasons adduced it has been proposed to create a temporary new sub-division called the Hubli Irrigation Sub-division. The S.E. proposes p.9 that this new sub-division may be created from 1-10-39 to 28-2-41 in the first instance. This is a period of 17 months. The Commr., on the other hand, recommends p.13 the opening of the new sub-division for a period of 5 months only and states that if the new estabt. can manage to execute repairs to tanks to the extent of half the allotment of the entire Distt., i.e., Rs.46,000, the cost of the new estabt. would be more than justified. The P.W.D. apparently proposes p.18 to accept the Commr.'s recommendation.

2. From the S.E's report it appears that the Commr.'s estimate of 5 months to finish half the amount of work may not prove true especially in view of the S.E.'s proposal to sanction the temporary estabt.

estabt. for a period of 17 months in the first instance. Before we agree to the present proposal to open a new irrigation sub-division in the Dharwar Distt. the following points may be got cleared by the Revenue and the P.W.Deptts. as there is no indication whether Govt. intended that repairs to minor irrigation works should or should not be done by the existing staff in the P.W.D:-

× Sec A. File No S.112 containing RD & No of April 1939 Pp 13-15-

(1) when the orders in G.R.,R.D.,No.7950/33 dated 6-4-39 were issued, whether Govt. intended that repairs to minor irrigation works should be undertaken by the P.W.D. by augmenting its staff. In other words whether they intended that the work of repairs to minor irrigation works should be finished without any delay so that if the programme of work in a P.W.D. division in hand is such that it would not admit of completing the repairs to the minor irrigation works without extra staff then the extra staff required should be created;

(2) these papers do not give information as to why the present staff in the Dharwar Division cannot undertake the repair work and also what amount of work they have got at present in hand. The P.W.D. may be requested to furnish full information about the work at present in hand in the various sub-divisions with the staffs working in that Division and to justify why the repair work which is the legitimate duty of the P.W.D. cannot be undertaken by the present P.W.D. staff in the Dharwar Division without creating a new sub-division;

(3) from the S.E.'s letter it appears that the work of repairs cannot be finished within the period of five months suggested by the Commr. The P.W.D. may be requested to consult the S.E. whether according to the Commr.'s suggestion if the estabt. is sanctioned for five months he will be able to

manage

manage the completion of repair work to the extent estimated by the Commr.

3. If it is considered that the above information is not necessary and as the Commr. who is the local officer, must have fully considered the necessity for the extra staff proposed by him, we may agree to the opening of the new sub-division subject to the following remarks:-

(1) It is not understood on what basis the pays of the three clerks at the rates of Rs.40, 35 and 30 have been proposed. The posts being new, F.D. may advise that they should carry the rates prescribed for new entrants. Please see para.4 of the P.W.D. Resolution No.3140/36 dated 15-5-1939. Govt. have fixed Rs.25-5/3-75 for 1st and 2nd clerks and Rs.25-5/4-55 for the 3rd clerk for permanent posts and a starting pay of Rs.30 for a qualified clerk. F.D. may therefore advise that the above rates of pay and the starting pay of Rs.30 should be adopted for the temporary posts and pays of the incumbents fixed accordingly.

(2) It is not clear why the S.E. has proposed 2 clerks for the divisional office. The P.W.D. may be requested to justify this part of the proposal and to state whether in the past when new sub-divisions were opened, the clerical strength of the divisional office was also increased simultaneously and if so, to quote precedents in support of this.

2 - OCT. 1939
Serial No.

Rev. Deptt.

Submitted with ref. to the office note dated 27.9.39. Up. 19

2. The F.D. enquires whether when the orders in G.R. No. 7950/33 dt. 6.4.39, were issued, it was intended that repairs to minor irrigation works were to be undertaken by the P.W.D. only by augmenting its staff — Vide para. 2 (1) of the F.D. Office note dt. 28.9.39. Attention in this connection is invited to the notes on pages 33 to 36 of R.D. file No. 7950/33 VI. It will be seen that it has been decided that so long as the P.W.D. staff is on the present scale all minor irrigation shd. be under the R.D. Again H.M.F.D. has also noted that the R.D. has no staff to carry out the work. It therefore follows that if in the present case the P.W.D. is to carry out the work in addition to its own ordinary work it shd. require additional estbt. From para. 9 of the S.E., S.E.'s letter dt. 25.8.39 it appears that where the additional estbt. is not necessary the S.E. has not proposed it. The F.D.'s query is however mainly for the P.W.D. to answer & these pp. may be passed on to that deptt.

11.10.39

I have seen experience of the minor irrigation tanks in Dharwar and consider that it is unthinkable for the present staff to deal with all the tanks that require immediate repairs. The disrepaired state of the tanks has gone on for years and the only alternative in several cases is either to repair them immediately or to ~~close~~ write-off the water-rate. I think creation of only one sub-division to deal with the tanks in the taluka proposed is a very modest step. Even though the R.D. has taken over the management, the Committees that have been attempted will take some years to function properly and the question of repairs cannot wait till then.

Subject:- Proposed formation of a new Sub-Division called the Hubli Irrigation Sub-Division in the Dharwar Division.

Sir,

I have the honour to invite a reference to this Office letter No.M.I.7/1, dated the 25th August 1939 and to request that pending sanction to the proposed formation of the new Sub-Division, it is requested that Government may kindly be pleased to authorise the Executive Engineer Dharwar Division, to appoint the two extra temporary clerks on Rs. 30/- p.m. each proposed for the Divisional Office in the concluding portion of para 4 of M.I.5-7 the above letter, with effect from the 1st October 1939. The Executive Engineer reports that some 80 estimates for repairs to non-declared tanks prepared in rough by the P.W.D. Overseers lent to the Revenue Department last year have been received from the Collector of Dharwar in original and these are required to be fair copied and kept ready for execution after the closure of monsoon or even earlier if possible.

I have the honour to be,
Sir,
Your most obedient servant,

FINANCE DEPARTMENT
File I
29. SEP. 1939
Serial No. B

Finance Department.

In his present letter the S.E. requests sanction of Govt. in advance to engage 2 clerks on pay of Rs.30 p.m. each from 1-10-39 for copying out the estimates for repairs to non-declared tanks. It is presumed that the estimates received from the Collector's office are a typed matter and as there may be typist in the Divisional Office, these estimates

can

can be typed by these typists bit by bit as they are required provided it is ruled that this work is the legitimate work of the Divisional Office. It is therefore for consideration whether F.D. should agree in advance to the entertainment of two clerks as proposed by the S.E. since it is not stated whether his office cannot do this work nor has he given any idea ~~of the character~~ whether the matter required to be typed should be typed all at once.

E.B.

Submitted with ref. to the Secy's note, dated the 22-9-39.

2. The F.D. enquires whether Govt. intended that repairs to minor irrign. works should be undertaken by the P.W.D. by augmenting its staff. This point has been replied to by the R.D. From the R.D. notes, it will be seen that as the P.W.D. will carry out the minor irrign. works in addn. to its ordinary work, the necessity for addnl. staff was admitted. The R.D. has remarked that the creation of only one sub-dn. to deal with the tanks is a modest step. In view of the above, it does not seem necy. to supply the information called for by the F.D. in para. 2 (2) of that Deptt's note dated the 28-9-39, by obtaining it from the S.E., S.C.

The department requiring the work to be carried at agrees to the creation of the extra subdivision & considers the demand a moderate one. F.D. may be requested to reconsider.

3. The F.D. has suggested that the S.E. S C. should be requested to state whether if the estabt. is sanctioned for five months, as suggested by the Commr., S.D., the S.E. will be able to manage the completion of the repair work to the extent estimated by the Commr. When the sub-dn. is formed as proposed, the local officers will obviously do their best to complete the work as much as possible. It therefore does not seem necy. to make a reference to the S.E. as proposed by the F.D., as it will delay the formation of the sub-dn.

4. Pl. see para. 3(i) of the F.D. note. It is proposed to sanction three sub-dnl. clerks at the rates of Rs 40, 35, and 30. When a new sub-dn. is formed, apparently some experienced clerks will be necy. It appears that for this reason, the S.E. has asked

for

for two sub-dnl.clerks on Rs 40 and Rs 35 and while filling the posts he will fix the pays of the clerks on previous service basis as usual or transfer some experienced clerks from other sub-dns. drawing Rs 40 p.m. and Rs 35 p.m. If experienced clerks are not appointed, the clerks will get the minimum of the scale viz. Rs 30, admissible to a qualified clerk.

5. With reference to para.3 (2) of the F.D.note dated the 28-9-39, it may be stated that the S.E.,S.C. has reported that two addnl.tempy.clerks are reqd. for fair copying some 80 estimates for repairs to non-declared tanks recd. from the Collr.of Dharwar. Owing to the retrenchments effected in the past, the strength of the clerical estabt.in the Dnl.office is just sufficient to cope with the ordinary work. It is recognised that in con. with the minor irrign.works, addnl.staff is necy. When the Dohad Scarcity Sub-dn. was formed, two tempy.clerks were sanctioned for the office of the Ex.Engr.,Kaira and Panch Mahals Dn.- vide Govt.Mema Nos.907/36-E, dated the 23-12-36 and the 22-1-37. When Jhalod scarcity Sub-dn. was formed, three tempy.addnl.clerks were sanctioned for the Dnl.office. In the circumstances, the F.D. may if approved, be requested to agree to the two clerks proposed for the office of the Ex.Engr.,Dharwar Dn.

6. On receipt of orders, the papers will be refd.u.o. to the F.D.

× p/p 21-23 ante

Submitted with reference to this Deptt. notes× dated 30th September 1939.

2. In view of the remarks made by the R.D. and the P.W.D., F.D. may agree to the proposal of the P.W.D. to open a new sub-division as suggested in the Secy., P.W.D.'s note p 18 dated 22-9-1939. With regard to the point raised in para.2(3) p 22 of this office note referred to above please see para.3 p 31 of the P.W.D. note dated 10-10-39. F.D. may suggest that the P.W.D. should issue instructions to the Officers concerned to complete the work as expeditiously as possible and if the repair works as estimated by the Commr. are not completed at the end of the 5 months' period suggested by him, the P.W.D. may be requested to ~~ask the Supdg. Engineer to give the information required in para.2 of this office note dated 28-9-39 and to~~ justify fully the extension of the period of the temporary estabt. in the new sub-division as well as in the Office of the Ex. Engr., Dharwar Division.

3. On the understanding mentioned in para.4 p 31 of the P.W.D. note, F.D. may agree to the higher rates of Rs.40 and 35 proposed for the sub-division clerks.

4. With regard to the employment of 2 temporary clerks ~~for~~ in the Office of the Ex. Engr., Dharwar Divn. on pay of Rs.30/- p.m. each F.D. may agree to the creation of two temporary posts of clerks for a period of 5 months only and if any further extension of these posts is considered necessary, the P.W.D. may be requested to adduce full reasons in support of such request, ~~in the light of this office note dated 30th September 1939.~~

5. The extra cost on account of the opening of the sub-division as well as the creation of two posts of clerks for the divisional office amounts to Rs.3210 for five months. ~~Sanction is accordingly given to the~~ The cost will have to be debited to the head for "Establishment" under "18-A-Irrigation Works-Civil

but there is no objection to funds being allotted from the provision of Rs.7,46,300 as suggested by the P.W.D.

⊕ vide para 5 of Fwd. note at p/16

Kam 14-10-39

OKH 6/10/39

As in §5. But I see that R.D. has not commented on this point. Presumably funds are available for allotment out of the provision of 7,46.

As in §5. But I see that R.D. has not commented on this point. Presumably funds are available for allotment out of the provision of 7,46.

2. The draft resolution put up may issue, if approved.

3. The presumption made by the Dy. Secy.(F.D.)(Mr.Bolton) in his ¶ 34 note dated the 17-10-39 seems to be correct. To have the presumption confirmed, the papers may be shown u.o. to the R.D. before submission.

¶¶ 31-32

4. Pl.see para.4 of the O.N.dated the 10-10-39. As the genl.principle of fixation of pays has been mentioned in the para referred to above, it is perhaps not necy. to inform the S.E.,S.C. on the lines thereof.

5. The subdte.put in charge of a sub-dn.is to get sub-dnl.allowance in accordance with the orders issued in G.M.No.S.90-1/9158, dated the 19-5-39. It does not therefore seem necy. to make any mention of the sub-dnl. allowance ¶ 7 in the draft orders.

RESO:- Govt.is pleased to sanction the formation of the Hubli Irrign.Sub-dn. with Head Qrs. at Hubli, till the 29th Feb.1940. By the constitution of this new Sub-dn.,the works in the Haveri Irrign.Sub-dn. and the Hubli Irrign.Sub-dn.should be distributed as suggested by the S.E.,S.C., in para.3 of his letter No M.I.7/1 dt the 25-8-39, with the exception of the 87 tanks in the Karajgi Taluka, which should remain in the Haveri Irrign. sub-dn., as suggested by the Commr.S.D. The existing Hubli Sub-dn. should be renamed as Hubli (Roads and Bldgs.) Sub-dn.

2. The following addnl.tempy.estabt. is sanctioned till the 29th Feb.1940:-

(a) Three tempy.overseers (one graduate-(B.E.) at Rs 70 p.m. and two Diploma Holders at Rs 50 p.m. each vide (a) of para 2 of the said letter No M.I.7/1 dt the 25-8-39

(b) Two clerks for the office of the Ex. Engr.,Dharwar Dn, at Rs 30 p.m.each.

(c) Three Sub-dnl.clerks
1 1st clerk at Rs 40 p.m.
2 Second clerk at Rs 35 p.m.
3 Third clerk at Rs 30 p.m.

(d) Two peons - one at Rs 14 p.m. and the other en Rs 13 p.m.
One chowkidar at Rs 13 p.m.

The following provision is sanctioned for t.a.and contingencies:-

T.A.(voted). ...	Rs	175
Contingencies....	Rs	75

3. The extra cost involved should be debited to the minor head 'Estabt.under '18-A Irrign.Works-Civil" and met from the provision of Rs 7,46,300 in the current year's budget under the head 18-A Civil (Spl.Dev.Programme).

4. The S.E.is requested to issue instructions to the officers concerned to complete the work as expeditiously as possible and if the repair work is not completed by the end of Feb.1940 as estimated by the Commr.,S.D., he(the S.E) should ask for sanction to the continuance of the sub-dn. justifying fully the extension of the period of the tempy. estabt.in the Hubli Irrign.Sub-dn.as well as in the office of the Ex.Engr.,Dharwar Dn.

Territorial changes, Dharwar Division: Formation of a new Sub-Division called the Hubli Irrigation Sub-Division: Orders regarding —.

GOVERNMENT OF BOMBAY.

PUBLIC WORKS DEPARTMENT.

Resolution No. 3917/36.

Bombay Castle, 1st November 1939. (L. E. Greening Esq. I.S.E.)

D/ Letter from the Superintending Engineer, Southern Circle, No. M.I. 7/1, dated the 25th August 1939, submitted through the Commissioner, Southern Division, as under:—

"I have the honour to invite a reference to Government Resolution (Revenue Department), No. 7950/33, dated the 6th April 1939, and to state that the Commissioner, Southern Division, in his letter No. I.R.R. 144, dated the 22nd May 1939, states:—

(*a*) that Government have sanctioned this year the following amounts for repairs to Minor Irrigation Works in the Southern Division:—

	Rs.
(i) Works to be executed by the Revenue Department ...	15,000
(ii) Works to be executed through the agency of the Public Works Department	1,49,724
Total ...	1,64,724

(*b*) that the amount under (*a*) (ii) above has been made by Government in pursuance of the policy of ensuring that all Minor Irrigation Works of any importance are properly repaired and kept efficient. Repairs even to tanks declared as second class are covered by this allotment;

(*c*) that as all the works from the grant under (*a*) (ii) above are to be executed through the Public Works Department, there is no necessity for the Revenue Department to maintain a special staff.

"2. The Collector of Dharwar in his endorsement No. I.R.R. 279, dated the 28th May 1939, states that it has already been pointed out to Government on more than one occasion that sixty per cent. of the Irrigation tanks in the Dharwar District are out of repair and call for immediate action. That Officer, therefore, considers that an amount of Rs. 60,000 should be applied for from the grant of Rs. 1,49,724 placed at the disposal of the Commissioner, Southern Division.

"3. The Executive Engineer, Dharwar Division, reports that the total allotment to be spent this year on repairs to Irrigation works (both declared and non-declared) including the sum of Rs. 32,000 placed at his disposal under Government Memorandum (Public Works Department), No. P. 55/8149, dated the 12th April 1939, will thus be Rs. 92,000. This amount is more than that which the defunct Dharwar Irrigation Division used to spend every year. It will, therefore, be seen that the additional work involved cannot be managed without an increase in establishment. He has, therefore, proposed the formation of a new Sub-Division as a temporary measure with head-quarters at Hubli. By the constitution of this new Sub-Division (to be called the Hubli Irrigation Sub-Division) the work in the Haveri Irrigation Sub-Division and the proposed Hubli Irrigation Sub-Division will be distributed as under:—

(1) *Haveri Irrigation Sub-Division.*

Extent of charge.

First Class Works.

1. Dharma Canal.
2. Madag Tank.
3. Asundi Tank.
4. Medleri Tank.

Second Class declared and non-declared tanks.

	Tanks.
5. Kod Taluka ...	749
6. The part of Hangal Taluka lying to the South of the Dharma river ...	642
Total ...	1,391

	Extent of charge.	
(2) *Hubli Irrigation Sub-Division.*	*Second Class Tanks (declared and non-declared).*	
		Tanks.
	1. Kalghatgi Taluka ...	673
	2. Bankapur Taluka ...	252
	3. Karajgi Taluka ...	87
	4. The part of Hangal Taluka lying to the North of the Dharma river ...	300
	5. Hubli Taluka ...	63
	Total ...	1,375

The remaining three Sub-Divisions, viz. Dharwar, Haveri (Roads and Buildings) and Hubli will remain unaffected except that all the Irrigation works (both declared and non-declared) in the Hubli and Kalghatgi Talukas will be transferred from the charge of the Hubli (Roads and Buildings) Sub-Division to that of the new Hubli Irrigation Sub-Division.

" 4. The opening of the new Sub-Division will necessitate the entertainment of the following establishment :—

	Monthly cost. Rs.
(*a*) Three temporary Overseers—	
(One Graduate at Rs. 70 per mensem and two Diploma holders at Rs. 50 per mensem)	170
(Two Overseers are required for supervision of repair works, etc., and one to replace the Senior Overseer who will be placed in charge of the Sub-Division due to the shortage of Assistant and Deputy Engineers).	
(*b*) Three Sub-Divisional clerks—	105
1. First Clerk at Rs. 40.	
2. Second Clerk at Rs. 35.	
3. Third Clerk at Rs. 30.	
(*c*) Two Peons and one night chowkidar at Rs. 14 each ...	42
(*d*) Sub-Divisional Allowance to the Overseer holding charge of the new Sub-Division according to the scale laid down in Government Memorandum No. S. 90/1/9158-E, dated 19th May 1939	15
(*e*) Travelling Allowance (Voted)	175
(*f*) Contingencies	75
(*g*) Two Clerks for the Divisional Office (one for accounts and one for correspondence at Rs. 30 each)	60
	642
Annual cost ...	7,704

" 5. If approved it is proposed to fix the headquarters of the new Sub-Division at Hubli as it has the following advantages over possible places such as Kalghatgi and Shiggaon :—

(i) Private buildings for the accommodation of the Office and the Sub-Divisional Officer and the Subordinates will be easily available there;

(ii) it is a healthier place;

(iii) there is no water scarcity as there is in other places;

(iv) there are better schooling and other facilities;

(v) it is easily accessible and has good communication in every direction.

" 6. I agree with the proposals formulated by the Executive Engineer and would request that Government may be pleased to accord sanction :—

(i) to open a new Sub-Division to be called the Hubli Irrigation Sub-Division;

(ii) to distribute the works as shown in paragraph 3 (1) and (2) above between the two Sub-Divisions, viz., Haveri and Hubli Irrigation;

(iii) to rename the existing Hubli Sub-Division as Hubli (Roads and Buildings) Sub-Division; and

(iv) to entertain the temporary Establishment as worked out in paragraph 4 above, with effect from 1st October 1939 to 28th February 1941, in the first instance.

" 7. The opening of a new Sub-Division to cope with the survey, project and repair work is a necessity. The establishment applied for is the barest minimum, and the annual cost of the additional establishment amounting to Rs. 7,700 compares very favourably with the works expenditure of Rs. 60,000, the percentage being 13 approximately.

" 8. Similar proposals for the Kanara and Belgaum Divisions are awaited from the respective Executive Engineers and will be submitted to Government on receipt.

" 9. There are only a few second class and Minor Irrigation Works in the Bijapur Division, and as such, it is anticipated that the Executive Engineer of that Division will be able to manage the repair works without the help of any additional Establishment.

" 10. A map showing the jurisdiction of the proposed Haveri and Hubli Irrigation Sub-Divisions in burnt sienna and purple respectively is enclosed herewith."

D 2 Endorsement on the above by the Commissioner, Southern Division, No. I.R.R., dated the 6th September 1939, as under :— (J. A. Madan Esq. I.C.S.)

" Passed on.

" 2. The Commissioner supports the Superintending Engineer's proposal for opening a new Irrigation Sub-Division in the Dharwar District for a period of five months from 1st October 1939. The cost of special establishment for this period would work out to Rs. 3,210 and if they manage to execute repairs to tanks to the extent of half the allotment for the entire District, viz. Rs. 92,000, the cost of the establishment would in the opinion of the Commissioner be more than justified. During the last financial year the cost of special establishment in the Dharwar District was Rs. 4,565 as against the works expenditure of Rs. 36,223.

" 3. The only flaw in the Superintending Engineer's proposals is the inclusion of the 87 tanks in the Karajgi Taluka. Haveri is the headquarters of the Karajgi Taluka and these works can better be managed from Haveri rather than from Hubli which is 50 miles away. Besides, when there is a Special Sub-Division in the Taluka itself already looking after the tanks therein, there is no reason why these tanks should be taken away from that Sub-Division and put into the jurisdiction of another Sub-Division 50 miles away. These 87 tanks may, therefore, be left in the Haveri Sub-Division itself."

Read letter from the Superintending Engineer, Southern Circle, No. M.I. 7, dated the 21st September 1939, submitted through the Commissioner, Southern Division.

Read endorsement on the above, by the Commissioner, Southern Division, No. I.R.R., dated the 23rd September 1939.

* Cf. ... from IL— 20-11-39 (A.N.)

*

RESOLUTION.—Government is pleased to sanction the formation of the Hubli Irrigation Sub-Division, with Headquarters at Hubli, till the 29th February 1940. By the constitution of this new Sub-Division, the works in the Haveri Irrigation Sub-Division and the Hubli Irrigation Sub-Division should be distributed as suggested by the Superintending Engineer, Southern Circle, in paragraph 3 of his letter No. M.I. 7/1, dated the 25th August 1939, with the exception of the 87 tanks in the Karajgi Taluka, which should remain in the Haveri Irrigation Sub-Division, as suggested by the Commissioner, Southern Division. The existing Hubli Sub-Division should be renamed as Hubli (Roads and Buildings) Sub-Division.

2. The following additional temporary establishment is sanctioned till the 29th February 1940 :—

(*a*) Three temporary overseers (one graduate—(B.E.) at Rs. 70 per mensem and two Diploma Holders at Rs. 50 per mensem each—*vide* (*a*) of paragraph 4 of the Superintending Engineer's letter No. M.I. 7/1, dated the 25th August 1939).

(*b*) Two clerks for the office of the Executive Engineer, Dharwar Division, at Rs. 30 per mensem each.

(*c*) Three Sub-Divisional Clerks—

1. First clerk at Rs. 40 per mensem.
2. Second clerk at Rs. 35 per mensem.
3. Third clerk at Rs. 30 per mensem.

(*d*) Two peons—one at Rs. 14 per mensem and the other on Rs. 13 per mensem.

One chowkidar at Rs. 13 per mensem.

44

The following provision is sanctioned for travelling allowance and contingencies :—

			Rs.
Travelling Allowance (voted)	...	...	175
Contingencies	...	...	75

3. The extra cost involved should be debited to the minor head " Establishment " under " 18-A, Irrigation Works—Civil " and met from the provision of Rs. 7,46,300 in the current year's budget under the head 18-A, Civil (Special Development Programme).

4. The Superintending Engineer is requested to issue instructions to the officers concerned to complete the work as expeditiously as possible and if the repair work is not completed by the end of February 1940 as estimated by the Commissioner, Southern Division, he (the Superintending Engineer) should ask for sanction to the continuance of the Sub-Division justifying fully the extension of the period of the temporary establishment in the Hubli Irrigation Sub-Division as well as in the office of the Executive Engineer, Dharwar Division.

Subject:- Territorial changes:
Transfer of the Minor Irrigation Works in the whole (instead of part) of the Hangal Taluka from the Haveri Irrigation Sub-Division to the new Hubli Irrigation Sub-Division - Dharwar Division.

No.M.I.7

Public Works Department,
C/V Belgaum, 25th November 1939.

p.41

Read Government Resolution (P.W.D.) No.3917/36, dated the 1st November 1939.

2. Letter No. M.I.7, dated the 16th November 1939 from the Executive Engineer, Dharwar Division, states as under :-

" It was proposed that all the tanks in Kalghatgi, Bankapur, Karajgi, Hubli and part of Hangal Taluka lying to the North of Dharma River should be entrusted to the New Hubli Irrigation Sub-Division, vide your No.M.I.7, dated the 25th August 1939. This has been approved by Government with the exception of Karajgi Taluka, which is to continue to remain in charge of the Haveri Irrigation Sub-Division. If this distribution is adopted, the Sub-Divisional Officer, Hubli Irrigation, will have only 15 tanks and allotment Rs. 10,816/- out of 55 tanks and Rs. 33,000/- allotment. This means that the Hubli Irrigation Sub-Division will have comparatively very little work, while that of the Haveri Irrigation Sub-Division will be nearly doubled. The sanctioned jurisdiction needs, therefore, to be changed temporarily to ensure equal distribution of work between the two Sub-Divisions. I propose that instead of a part of the Hangal Taluka, the whole of it should be entrusted to the Hubli Irrigation Sub-Division and if this is done, the allotment for each of the Sub-Divisions will stand as shown below :-

p.1

Haveri Irrigation.		Hubli Irrigation.
Rs. 16,083	Collector's grant for minor tanks.	Rs. 16,829/-
Rs. 14,000	P.W.D. grant for 2nd Class tanks.	Rs. 18,000/-
Rs. 5,650	I Class tanks.	Rs.
Rs. 35,733/-		Rs. 34,829/-

I request that the above change may kindly be sanctioned. To avoid delay in making preliminary arrangements for starting of works and fixing up contracts etc., I am distributing work as stated above in anticipation of your approval which may also please be granted.

O R D E R .

Under the powers delegated in Government Resolution (P.W.D.) No.5779/27, dated the 23rd October 1931, sanction is accorded to the transfer of the Minor Irrigation Works in the whole (instead of part) of the Hangal Taluka from the Haveri Irrigation Sub-Division to the Hubli Irrigation Sub-Division as a temporary measure until 29th February 1940.

Subject:- Hubli Irrigation Sub-Division in the Dharwar Division: Sanction to the continuance of -

Sir,

I have the honour to invite a reference to Government Resolution (P.W.D.) No. 3917/39, dated the 1st November 1939 sanctioning the formation of the Hubli Irrigation Sub-Division until the 29th February 1940 and to state that the new Sub-Division was opened with effect from 20th November 1939 as reported in this Office No.M.I.7/1 dated the 28th idem. It, however, of necessity took some little time to make arrangements for the recruitment of Office, Subordinate and inferior establishments, procuring reliable contractors, fixing up contracts, hiring office accommodation etc., and the Sub-Division had its full complement from the 1st January 1940 from which date it has begun to function.

2. Repairs to a number of tanks in the several Talukas of the Dharwar District are now in progress and with all possible expedition, these unfinished works are not likely to be completed before the end of May 1940. Thereafter a period of a couple of months is required to take measurements, prepare bills and settle the accounts of the various contractors.

3. For all these reasons the Executive Engineer, Dharwar Division, proposed that the Sub-Division may be

continued

continued at least to the end of July 1940. The Collector of Dharwar supports the proposal of the Executive Engineer, and in this I concur.

4. It is, therefore, requested that Government will be pleased to sanction the continuance of the Hubli Irrigation Sub-Division and the retention of the temporary establishment (Office Subordinate and inferior) employed in the Sub-Division as well as in the Divisional Office, Dharwar, until 31st July 1940. The necessary orders may kindly be issued before the 25th February 1940 at the latest.

I have the honour to be,
Sir,
Your most obedient servant,

L. C. Greenup

Superintending Engineer,
Southern Circle. 5/2/40.

Through:-

The Commissioner, Southern Division,
with compliments.

P.W.Deptt.

E.B.

Submitted with ref.to G.R.No. Wb 41-44
3917/36, dated the 1-11-39.

2. The S.E.,S.C.,had originally recommended that the Hubli Irrign.Sub-dn. should be formed from the 1-10-39 upto the 28-2-41 - vide his letter No.M.I.7/1, Wb 41-42 dated the 25-8-39, printed in the preamble of the reso. Govt. however sanctioned the formation of the sub-dn.upto the 28-2-40 in view of the remarks of the Commr.,S.D. in his endt.,dated the 6-9-39 (also P 43 printed in the preamble of the reso.) and directed that if the repair work is not completed by the end of Feb.1940, as estimated by the Commr.,S.D., the S.E.should ask for sanction to the continuance of the sub-dn. with full justification therefor - vide para.4 P 44 of the G.R. In the circumstances explained in his letter Wb 59-61 within the S.E. now requests that the sub-dn.should be continued till the 31-7-40 and the tempy. estabt.employed in the sub-dn.as well as in the Dharwar Dnl.office retained till that date. The Commr.,S.D. supports the P 63 S.E's request. It is accordingly for consideration whether the S.E's request may be sanctioned.

3. The extra cost involved in the opening of the sub-dn.has been met during the current year by reappropriation from the provision under the minor head 'Special Dev.Programme' under the major head '18-A.Civil' - vide para.3 P 44 of G.R.No.3917/36, dated the 1-11-39. The extra cost involved during the next year in the continuance of the sub-dn.will also have to be met

3917/36
3550

from the provision in the next year's budget estimates under the same minor and major head and orders in that connection will be issued after the budget estimates for the next year are published.

4. The R.D. and the F.D. may see the papers with reference to the above proposals.

SKJ 13/2/40 Thro. I.B.

SKJ 13/2/40 12/2

Even when the sub division was sanctioned for the present term it was anticipated that the work may not be over by this month. The SE's present request for extension explains the position clearly & shows that the extension is very necessary even from the point of view of economy. I think the SE's proposal which has been agreed to by the Comm. should be sanctioned.

Below No.M.I.7 of the Executive Engineer, Dharwar dated 1-6-1940.

****

No.I.R.R.
Office of the Collector,
Dharwar, 8th June 1940.

Passed on.

2. The continuance of the Hubli Irrigation Sub-Division is no doubt a necessity, as made out by the Executive Engineer in his detailed report. But in view of the grant sanctioned viz. Rs. 35,000/- for the Dharwar Division for repairs to Minor Irrigation Works to be executed by the P.W.D. and the curtailed grants, it does not appear possible and desirable to continue the Sub-Division and the remaining works can be carried out as was done previous to the formation of the Hubli Irrigation Sub-Division.

Sd. D. S. Modak
Collector of Dharwar.

V.M.T.

No. M.I.7. Office of the Executive Engineer, D.D. Dharwar, 1 May/June 1940.

From

The Executive Engineer,
Dharwar Division, Dharwar.

0/M.I.7
10-6-1940

To

The Superintending Engineer,
Southern Circle, Belgaum.

Subject :- Hubli Irrigation Sub Division.
Continuance of the -

Sir,

With reference to your No. M.I.7/1, dated the 5th February 1940, on the subject mentioned above, I have the honour to state that it is necessary to continue the Hubli Irrigation Sub Division not only for one year more but for some years to come for the following reasons:-

2. The Sub Division in question was formed last year in order to cope with the additional programme of repairs to Minor Irrigation Tanks sanctioned by Government in pursuance of the recommendations of the Sir M. Vishweshwar Ayya Irrigation Enquiry Committee and the consequent re-orientation of their policy towards these tanks, the up-keep of a large number of which was not attended to for several decades of years in the past to the detriment of both Government as well as the agriculturists depending upon these tanks.

4/6/40

3. This year the same policy continues and though the sanctioned grant is less than that of the last year, I presume the Commissioner, Southern Division, would move Government and get additional funds early as per requirements reported in this office Nos. M.I.7 and G-20, dated the 6th and 27th May 1940, respectively. The current year's programme of works will therefore be in no way lighter than last year's as may be seen from the statistics given in para 5 below to justify the continuance of the Sub Division for one more year at least.

Post 4/6/40

4. Last year the number of tanks under repairs over and above the usual annual programme carried out from the Civil grant was 87 and the money spent on them amounted to Rs.42,610/- The total number of tanks repaired from all sources was 168 and the total expenditure amounted to Rs. 73,032.

This year the unfinished works continued from last year are 119 involving an expenditure of Rs. 50,786/- vide statement submitted with this office No. M.I.7, dated the 6th May 1940.

(b) The new works proposed to be started after the monsoon are 50 costing Rs. 45,510/- vide statement submitted with this office No. G-20, dated the 17th May 1940 and the amount expected to be spent on them before 31st March 1941 is Rs. 35,000/-. Besides, estimates costing about Rs. 20,000/- as per list "A" enclosed herewith are at present under scrutiny in this office and will be ready for execution by the time the monsoon is over. These are also proposed to be taken up and the expenditure likely to be incurred on them before the end of the year would be Rs. 10,000/-.

(c) In addition to the above, there are two other works estimated to cost Rs. 30,000/- as noted in the margin and funds are likely to be made available lateron during the year, as soon as the estimates are sanctioned, from the budget provision of Rs. 6,00,000/- sanctioned by Government under 'D-Special Development programme'.

(1) Repairs to feeder to the tank in S.No.378 at Guttal Taluka Karajgi (estimate submitted to the Superintending Engineer, S.C. through the Collector of Dharwar under this office No. Krj. of 13-5-1940.	Rs.20,000/-
(2) Repairs to tank in S.No. 93 of Mangundi Taluka Dharwar (estimate submitted to Government under Superintending Engineer, S.C's No.D.I.1/D.D. dated the 11th April 1940.	Rs.10,000/-

(d) Even omitting the two works of the "Special Development programme" mentioned above, the total number of tanks under repairs during the year will be 170 and the expenditure will amount to Rs. 1,06,886/- including Rs. 8,000/- on the annual maintenance of Irrigation Rest Houses etc., and Rs. 8,100/- for surveys. This programme is heavier than the average annual expenditure of the whole late Dharwar Irrigation Division which was only Rs. 80,000/-. Surely therefore it will not be too much to ask for the continuance of the Hubli Irrigation Sub Division upto 31st July 1941, by which time most of the new works started this year are expected to be completed.

6. The current year's programme as detailed in para 5 above does not exhaust the number of tanks in need of repairs. There are a number of tanks already surveyed and many are being surveyed. A list 'B' (Wh 315-45) showing all these cases is submitted herewith for favour of perusal. Every year a new batch of about 150 works will have to be taken up for repairs as estimates get ready and in this way a number of years will go by before one cycle of repairs is completed and as long as sufficient funds covering this programme are forthcoming, the continuance of the Hubli Irrigation Sub Division will be necessary.

7. The working expenses of the Hubli Irrigation Sub Division including travelling allowance, contingencies as well as the pay of the two temporary clerks sanctioned for the Divisional office from 20-11-1939 to 31-3-1940 amount to Rs. 1,910/- and the proportion of the same to the works expenditure (only additional over and above the usual annual programme) works out to 4.25 %. Of course the amount of Rs. 1,910/- does not include the share of the overhead charges pertaining to Divisional, Circle and Secretariat offices. Even if they are included, the percentage will not be more than 10. This is indeed a very favourable result as the working expenses of any ordinary Division are more or less 24%. Now that the Sub Division has been fully organized and the staff is trained sufficiently, still better result may be expected in years to come. It will therefore be in the best interest of Government that the Sub Division should continue.

8. As regards the Survey party I have already reported in my letter No. H.I.7, dated the 4th May 1940 that it is necessary to maintain the present strength to cope with the work already in hand as detailed in list 'B' referred to in para 6 above as well as that which may be received hereafter during the course of the year from different sources. Apportionment of this work by surveyors is yet awaited from the Sub Divisional Officers and will be submitted on receipt. I may, however, mention here for your information that the work already in hand provides sufficient work for the surveyors

for

for not less than a year to bring forth estimates costing more than Rs. 1,00,000/- by the end of the year.

9. A list of land acquisition cases to be attended to during the current year marked 'C' is sent herewith for perusal if necessary.

I have the honour to be,

Sir,

Your most obedient servant,

Executive Engineer, Dharwar Dn.

U R G E N T.

No.M.I.7. Public Works Department,
Belgaum, 20th June 1940.

From

L. E. Greening, Esquire, I.S.E.,
Superintending Engineer,
Southern Circle.

To

The Secretary to Government,
Public Works Department,
B O M B A Y.

Subject:-Hubli Irrigation Sub-Division in the Dharwar Division: Sanction to the continuance of-

Sir,

I have the honour to invite reference to Government Memorandum (P.W.D.) No.3917/36-E, dated the 26th February 1940 sanctioning the continuance of the Hubli Irrigation Sub-Division until the 31st July 1940, and to state that the programme of repairs to Minor Irrigation Works is now in full progress and it is likely to remain so for a couple of years more. It is, therefore, necessary that the Hubli Irrigation Sub-Division should continue for that period.

Wb 101-104

2. In this connection, I enclose a copy of letter No.M.I.7, dated the 1st June 1940 together with accompaniments from the Executive Engineer, Dharwar Division which show the magnitude of work already undertaken and to be undertaken in the Dharwar Division during the current year. The programme of repairs to Minor Irrigation Works which alone involves an expenditure of more than Rs.1,00,000

is heavy and one beyond the capacity of the regular normal establishment. The works in question are a substantial Revenue earning asset and it is essential that these should be repaired and maintained in a satisfactory condition in order to safeguard the interest both of Government and of the agriculturists depending upon these tanks.

3. I, therefore, concur in the views expressed by the Executive Engineer, that as the Hubli Irrigation Sub-Division has been, by now, fully organised and the staff trained sufficiently, still better results are expected in the years to come and it will be judicious therefore to continu the present policy.

p 99

4. The Collector of Dharwar also agrees that the continuance of the Hubli Irrigation Sub-Division is a necessity but does not consider the proposal to be desirable in view of the reduced grants sanctioned for repairs this year. However, now that the operations are in full swing and as it is not desirable to leave them half finished, additional funds to meet the requirements according to the programme of repairs to the tanks have since been applied for from the Commissioner, Southern Division, Belgaum.

5. In this connection, it may also be pointed out that the additional amount required for continuance of the Hubli Irrigation Sub-Division being small as compared to the benefits

derived

derived by the Irrigators, it is not advisable to close the Sub-Division or to curtail the operations for want of funds at this stage, which may result in the money already spent being wasted.

6. It is, therefore, strongly recommended that Government will be pleased to sanction the continuance of the Hubli Irrigation Sub-Division and the temporary establishment (Office, Subordinate, and inferior) employed in the Sub-Division as well as in the Divisional Office, Dharwar, until the 28th February 1941 in the first -- instance.

I have the honour to be,

Sir,

Your most obedient servant,

L. C. Greeming 20.6.40

Superintending Engineer, S.C.

Accompts:-
As above.

V.M.T.

THROUGH:-

The Commissioner, Southern Division, Belgaum, with compliments.

2. In this connection, a reference is also invited to this Office No.G-20, dated the 20th June 1940.

Serial No. 13931

29/6

E.B.

When the Hubli Irrign.sub-dn.was sanctioned the S.E.,S.C.had recommended its formation upto the 28-2-41 - vide his letter No.M.I.7/1,dated the 25-8-39 printed in the preamble of G.R.No.3917/3 dated the 1-11-39; Govt.however sanction ed it upto the 29-2-40 and directed that if the repair work is not completed by that date,as estimated by the Commr.,S.D the S.E.,S.C., should ask for sanction to the continuance of the sub-dn. with full justification therefor vide para.4 of the G.R.refd.to. In Feb.1940 the S.E. reported that though the new sub-dn.was opened with effect from the 20-11-39 it began to function with its full compliment only from the 1-1-40. He further pointed out that repairs to a number of tanks were in progress and it was not possible to complete these unfinished works before the end of May and added that a couple of months more will be required to settle up accounts with various contractors etc. The continuance of the sub-dn.has accordingly been sanctioned upto the 31st July 1940.

3. The S.E.,S.C.,now observes that th programme of repairs to minor irrign. works is now in full progress and it is likely to remain so for a couple of years more. He considers that the Hubli Irrign.sub-dn.should continue f r that period but in the first instance recommends its continuance upto the 28-2-41. The Commr.,S.D. concurs in the recommenda tion of the S.E. The letter from the

Ex.

3917/36
13931

Ex.Engr.,Dharwar Dn.shows the magnitude of work already undertaken and to be undertaken - vide specially paras.4-6 of his letter. From the current year's budget estimates it is observed that there is a provision of Rs 6 lakhs for new works and works in progress under the minor head 'Special Development Programme' under the major head '18-A-Civil'. It will be seen from para.4 of the S.E's letter that he has already approached the Commr.,S.D.for addnl.funds to meet the requirements of the programme of repairs to the tanks. In the circumstances it is for consideration whether the S.E's proposal to continue the Hubli Irrign.sub-dn.upto the 28-2-41, which is supported by the Commr.,S.D., may be accepted in consultation with the R.D.and the F.D. The extra cost involved in the continuance of the sub-dn.throughout the current year will have to be met from the spl.provision mentioned above under the major head 18-A-Civil vide in this connection para.3 of the U.N. dated the 13-2-40.

SKP 3-7-40

BKR 3/7

3/7/40

Thro' S.B.

It is necessary to put the M.I. works in the area in a proper State of repair. It is well known that they have been allowed to go into disrepair and now that the work is half way up it is economical to carry it to finish it satisfactorily. Funds from 'Development fund' are being allotted for M.I. works & it is likely that allotments will be available for this type of work for 2 or 3 years more. But we may sanction the sub-division

for a year more i.e upto 31-7-41. This will give them 2 working seasons — upto march last & again upto next rains.

Sanctioning the last Dn upto Feb 41 will again be found insufficient & involve a break in the operations and bigger extensions as a result.

4.7.40

above proposals would seem reasonable & suitable.

6/7

It seems to be essential to keep on this subdivision by day 2 TR's suggestion is reasonable, but as SE has asked for sanction till end of Feb/41 only this may be sanctd in the first place

Subject :- Continuance of Hubli Irrigation Sub-Division.

Sir,

With reference to your Nos. M.I.7, dated the 1st August and 7th November 1940, on the subject noted above, I have the honour to report that the programme of repairs to Minor Irrigation Works is now in full swing and it is likely to remain so for a number of years more as explained in the several reports in the past, the last being this office No. M.I.11, dated the 28th October 1940, in reply to the Commissioner, Southern Division's queries on the subject. It is therefore necessary that the Hubli Irrigation Sub-Division should continue for 15 years which is the minimum time needed to put all the Minor Irrigation tanks in this Division into thorough repairs once.

2. A detailed programme for 15 years cannot be given as it is not possible to draw it up without incurring a large amount of initial expenditure as already reported in detail in my letter No. M.I.11, dated the 11th July 1940. According to the present arrangement, preparation of projects and execution of repairs go hand in hand and it is seen that sufficient No. of projects are kept ready for execution. The following facts and figures will however give an idea of the work to be carried out during the next few years :-

(a) 69 new works are being started this year from the allotment of Rs. 31,400/- recently received and these will be in progress during the next year, the allotment required for completing them during that year will be about Rs. 30,000/-.

(b) Some of the works started during 1939-40 will also remain in progress during the year 1941-42, the delay in their completion being due to the land acquisition proceedings having not been finished in a majority of the cases and in some, du

to the magnitude of the works themselves. A sum of Rs. 10,000 roughly may be required for these works during the next year.

Thus a sum of Rs. 40,000/- is required for works in progress during 1941-42.

(c) 34 estimates of the value of Rs. 35,000/- have already been sanctioned by me and are awaiting funds.

(d) Six estimates of the total value of Rs. 29,230/- are awaiting the sanction of the Superintending Engineer, Southern Circle, as per list enclosed, one of them alone costing Rs. 13,545.

(e) The total value of estimates under scrutiny in this office is about Rs. 1,43,000/- and of these, there are major works costing about Rs. 66,800 as under :-

Heggeri feeder	Rs. 34,900
132 Madapur, feeding Karadgi lands.	" 10,200
Belgal feeder.	" 21,700
	Rs. 66,800

(f) Numerous cases of repairs are in different stages of investigation as per enclosed list and it is difficult to estimate the value of all these works at this stage.

3. The works mentioned in paras 2 (a) to (e) alone are able to give sufficient work to the two Irrigation Sub-Divisions for the next three years. By the time these repairs are carried out, fresh projects more or less of equal amount will be ready from the list referred to in para 2(d) above. Similarly as this fresh batch will be consumed, another will be ready from the calls that may be received hereafter. In this way there will be quite sufficient work for the Hubli Irrigation Sub Division for 15 years to come without even taking into account the works falling under the category of the special development programme, which I believe, will also be financed next year. After one cycle of repairs is thus completed within 15 years time, the tanks repaired in the first year or so of this period will as usual be again needing repairs of course not to the extent now being done (which is heavy on account of the tanks having been neglected for decades of years in the past) but at any rate the annual grant

for repairs which used to be sanctioned before the opening of the Hubli Irrigation Sub-Division will nearly have to be doubled permanently and to carry out repairs to that extent. Hubli Irrigation Sub Division will also be required permanently.

4. In the circumstances therefore, if Government will not be pleased to sanction the Hubli Irrigation Sub-Division on a permanent footing as recommended by the Commissioner, Southern Division sanction may be applied for to continue it for at least five years to start with, with all the temporary Establishment now employed in both the Sub-Division and the Divisional offices.

5. Before concluding one important point which requires to be brought prominently to the notice of Government is that provision of the minimum allotment viz. Rs. 80,000/- to one lakh in the annual budgets is a pre-requisite to the continuance of the Sub-Division to realize its utility in full. Unfortunately the allotments granted for the purpose either during the last or this year are not sufficiently large to admit proportionate progress being made in this respect. Out of 2900 tanks 168 were taken up last year and 69 are being undertaken this year. About 30 more are taken up by the Revenue Department. The average No. of tanks under repairs per year comes to 134 which falls short by 20 % of the number required to carry the programme to completion with 15 years time. There is therefore a very great necessity of funds coming forth to a much greater extent than they have, during the current year and the last, firstly because the magnitude of work to be done is really great and secondly because curtailed allotments cause greater expenditure over establishment. The Ryots have been clamouring for it and they would bless the day they see their tanks - rather, their means of livelihood restored. I may add here that as Government has been evincing a keen interest in rural uplift, no other programme should really appeal to Government more than this.

I have the honour to be,
Sir,
Your most obedient servant,

Accompts.

Executive Engineer D.Dn.

11/12/40.

Statement showing the calls for repairs to Minor Irrigation tanks in Dharwar Division received from the various Sources and the stage which they have reached to the end of

Description of stages :-

A. Report called for from the Sub Divisional Officers or others.

B. Inspection Note called for from the Sub-Divisional Officers.

C. Sub Divisional Officer asked to carry out the Surveys.

D. Surveys carried out and Project to be prepared.

E. Estimate returned to the Sub Divisional Officer with remarks.

F. Estimate is under scrutiny in the Divisional office.

	Particulars of calls for repairs to tanks.			The stage at which the call stands at present.	Probable cost.	Remarks.

No. I.R.R.S.R.
Office of the Collector
Dharwar, 22nd December 1940.

Passed on.

2. The Collector agrees with the Executive Engineer that there is a necessity for the continuance of the Hubli Irrigation Sub-Division, in view of the large number of minor Irrigation Works which are still to be carried out in this district. It cannot be denied that the benefits accruing from these Minor Irrigation Tanks, if they are improved, would in the long run far outweigh the expenditure now incurred for them, and hence the necessity of completing all the minor Irrigation Works in the district.

Sd/-
Collector, Dharwar.

Below letter No.M.I.7, dated the 12th December 1940, from the Executive Engineer, Dharwar Division and its accompaniments with the Collector of Dharwar's endorsement No.I.R.R.S.R. dated the 22nd idem.

****

No.M.I.7. Public Works Department,
Belgaum, 10/14 January 1941.

Copy forwarded, with compliments, to the Secretary to Government, Public Works Department, Bombay, with reference to Government Memorandum No. 3917/36-E, dated the 29th July 1940.

2. The Executive Engineer has made a detailed report as to the magnitude of the work to be carried out during 1941-42 and thereafter in connection with repairs to Minor Irrigation Works the necessity of which needs no further emphasis.

3. In order, therefore, to carry out the programme of repairs to the Minor Irrigation works in the Dharwar Division, it is considered that the Hubli Irrigation Sub-Division should be continued at least for fifteen years from the 1st March 1941 if it cannot be sanctioned on a permanent basis as proposed by the Commissioner, Southern Division, in his letter No. I.R.R.269, dated the 10th December 1940, addressed to Government in the Public Works Department.

4. The Superintending Engineer therefore recommends the continuance of the Hubli Irrigation Sub-Division and the Establishment employed therein

as

as well as in the Divisional Office, Dharwar, for a further period of fifteen years from the 1st March 1941, subject to the reduction of the Establishment agreed to in this office U.O. reference No.G-20, dated the 6th January 1941, addressed to the Commissioner, Southern Division, in connection with Government Un-Official reference dated the 30th November 1940.

PUBLIC WORKS
File No. 3917/36
29 JAN 1941

Note in E.B.

The Hubli Irrign.Sub-dn. was sanctioned in G.R.No.3917/36, dated the 1-11-39. p.41 It has been continued on a tempy.basis since then. The Sub-dn.was created to carry out repairs to the Minor Irrign. tanks in the Dharwar Dn.through the P.W.D agency. In the year 1939-40 it was anticipated that an amount of Rs 92,000 will be spent for this purpose and this amount was more than the defunct Dharwar Irrign. Dn.used to spend every year.

The present sanction of the Sub-dn. expires on the 28-2-41.

2. The Ex.Engr.,Dharwar Dn.has given pp 127-129 detailed reasons for continuing the Sub-dn. for 15 years more. Pl.see para.2 of his letter at pp. 127-128 ante.

The following table shows the various stages of the M.I.tank projects in the Dharwar Dn.

	No.of projects.
(1) Estimate under scrutiny in the Dnl.office.	62
(2) Estimate returned to the S.D.O.with remarks.	21
(3) Surveys carried out and projects to be prepared.	57
(4) Surveys proposed to be undertaken.	142
(5) Inspection notes called for	13
(6) Initial stage.	45
	340

The estimated cost of works included in item (1) above is about Rs 5 lakhs. The Collr.,Dharwar Dist.,agrees p.157 with the Ex.Engr.and states that the benefits accruing from the impt.of the M.I.tanks would in the long run far outweigh the expendre.incurred on them. The S.E.,S.C. has

3917/36. 164
1402 pp 159-160

has recommended that the Hubli Irrign. Sub-dn. may be continued for another 15 years. The Commr., S.D. agrees with the S.E's recommendation. p. 160

3. It has been separately agreed by the R.D. that the Hubli Irrign. tanks Sub-dn. should be continued during the year 1941-42. ~~Please in this connection D.N. of today's date on file No. P.50/1077, submitted herewith as a linked case.~~

In view of the S.E's recommendation supported by the Commr., S.D. it is for consideration whether the Sub-dn. may be continued for 15 years as proposed.

4. These papers may be refd. u.o. to the R.D. and the F.D. (in succession). ~~along with the linked file No. P.50/1077~~.

SAJ 4-2-41 3

Through D.B & A.E

5. In the conference of Revenue and P.W.D. officers convened by the Commr., S.D. in July 1936, it was unanimously agreed that only an annual expenditure of about Rs 1,40,000 for some years could secure the proper repair of every tank in Dharwar Dist. within a cycle of 15 years and that for carrying out repairs to this extent it was necy. to revive the Dharwar Irrign. Dn. For the present, only a new Sub-dn. has been sanctioned on a tempy. basis. It will be clear from the local officers' opinion that even with a large grant of Rs 1,40,000 a year, repairs to all the tanks

will

will take 15 years to complete. With a smaller grant the period will be correspondingly longer. Even after the first fifteen years the tanks already repaired will require further attention although not to the extent initially required. It would therefore, appear that the Sub-dn. will be required more or less permanently to keep the tanks in proper repairs. The repair grant will also have to be kept up to the extent necessary; as otherwise the revenue earning asset will deteriorate and the revenue itself will fall down. For the present it appears desirable to continue the Sub-dn. for 15 years after which the matter can be reviewed in the light of experience gained.

Subject:-Statement (Form 'A') showing New Items of expenditure for the Southern Circle for 1941-42 under the head '18-A-Civil'.

Sir,

I have the honour to invite a reference to the statement (Form 'A') showing new items of establishment, involving a total non-recurrent expenditure of Rs. 9,616/- required for the year 1941-42 under the head '18-A-Irrigation Civil, submitted to Government under this office endorsement No.G-19 dated the 14th September 1940 through the Commissioner, S.D. Subsequently in response to the Government U.O. reference No.P.50-19776 dated the 26th November 1940, received through the Commissioner, it has been agreed ~~to~~ in this office U.O.No.G-20, dated the 6th January 1941, to reduce the provision from Rs. 9,616/- to Rs. 7,508/- by deleting the provision of Rs. 2,108/- as under:-

1 Overseer @ Rs.54/- P.M. in the Dharwar Division.	Rs. 648
1 -Do- @ Rs.50/-P.M. for 5 months in the Belgaum Division	" 260
1 -Do- @ Rs.50/- P.M. in the Kanara Division.	" 600
	Rs.1,508
Provision for T. A.	" 600
Total proposed reduction	Rs. 2,108

2. Pending orders of Government, the establishment for which a reduced provision of Rs. 7,508/- for the next year has been agreed to, vide para 1 above will, however, continue to be retained after the 28th February 1941 on which date the present sanction to its employment expires.

I have the honour to be,

Sir,

No.L.I.7. Public Works Department,
Belgaum, 15th May 1941.

From

I. E. Greening, Esquire, I.S.E.,
Superintending Engineer,
Southern Circle.

To

The Secretary to Government,
Public Works Department,
BOMBAY.

Subject:-Continuance of the Hubli Irrigation Sub-Division.

Sir,

I have the honour to state that the following temporary office and supervising establishment has been sanctioned for the Hubli Irrigation Sub-Division as also for the Belgaum and Kanara Divisions upto the 28th February 1942 under G.I.R.No.3917/36-E, dated the 25th February 1941:-

3 Overseers.
2 Divisional clerks at Rs.30/- per mensem each for the office of the Executive Engineer, Dharwar Division.
5 Sub-Divisional clerks at Rs.30/- P.M. each
(3 for the Hubli Irrigation Sub-Dn.
(1 for the Sirsi Sub-Division.
(1 for the Haliyal Sub-Division
3 Inferior servants for the Hubli Irrigation Sub-Division.

2. It will be seen from the above that provision for three temporary Overseers as detailed below has been omitted as recommended in para 6 of this office D.O. reference No.G-20, dated the 6th January 1941:-

1 Overseer at Rs.54/- P.M. in the Dharwar Division

1 -Do- at Rs.50/-P.M. for five months in the Belgaum Division.

1 -Do- at Rs.50/- P.M. in the Kanara Division.

3. Since, however, Government have now granted in G.R.(P.D.) No.42, dated the 30th April 1941,

increased provision of Rs. 1,57,500/- against Rs. 79,530/-, vide para 5 of the U.C. reference quoted in para 2 above, it is requested that Government may kindly be moved to accord sanction to renew the posts of three temporary Overseers referred to for the year ending 28th February 1942.

I have the honour to be,

Sir,

Your most obedient servant,

W. C. Greenway 15.5.41.

Note in E.B. p.172

In G.M.No.3917/36-E.,dated the 25-2-41,sanction has been accorded to the continuance of the Hubli Irrign. Sub-dn. upto the 28-2-42.

2. The Hubli Irrign.Sub-dn.was first created on the 20-11-39 with the following addl.tempy.estabt.:-

3 Overseers.
2 Divl.Clerks
3 Sub-divl.Clerks.
3 Inferior servants.

All the above estabt.was required for carrying out the repairs to the Minor Irrigation Works in charge of the R.D. This estabt.was continued during the year 1941-42. Along with the above staff, sanction was also accorded to the creation of the posts noted in the margin. The S.E.,S.C. recommended the continuance of the above estabt.during the year 1941-42 except 1 Overseer in the Belgaum Dn.,vide pl.pp.48-49 of file No.P.50(Misc.). The R.D.did not agree to the continuance of the full estabt. mentioned above as it was anticipated that during the year 1941-42 an allotment of about Rs.79,000 only will be placed at the disposal of this Deptt.for repairs to the M.I.Works executed by the R.D. through the agency of the P.W.D.

3. The S.E.,S.C.,agreed to reduce the estabt.by three overseers,i.e.those employed in the Belgaum and Kanara Dns. for M.I.Works, but had remarked that should additional funds for repairs to the M.I.Works be subsequently granted

the

Serial No.

Finance Department.

The establishment proposed was abolished as the financial provision (Rs.79,000) expected to be made for the Minor Irrigation Works during the current year was less than that of the last year (Rs.1,24,000) and the works which could be expected to be carried out from that amount(Rs.79,000) would not require the services of the same.However, Rs.1,57,500 have been actually provided for the M.I.Works and hence the establishment proposed seems to be necessary. The F.D. may therefore agree to the P.W.D. proposal.

No.M.I.7. Public Works Department,
Belgaum, 3rd June 1941.

To

The Secretary to Government,
Public Works Department,
BOMBAY.

Subject:-Continuance of the Hubli Irrigation Sub-Division.

Sir, P-175

In continuation of this office letter No. M.I.7, dated the 15th May 1941, I have the honour to state that the total allotment so far sanctioned for Minor Irrigation works in the Dharwar Division during the current year is Rs.98,120/- in addition to R. 5,045/- for two well works as detailed below:-

(i) Actual allotment	Rs.	43,850
(ii) Authorized grant	"	44,270
	Rs.	88,120
(iii) Improvements to the tank at Hirekeri in S.No.198 at Ganjikatti, Taluka Kalghatgi, sanctioned in G.R.(R.D.) No. P.42, dated the 30th April 1941.	Rs.	10,000
&	Rs.	98,120
(iv) Two well works to be executed by the P.W.D. at the instance of the Rural Development Board lying within the jurisdiction of the Hubli Irrigation Sub-Division.	Rs.	5,045
Grand total	Rs.	1,03,165

Out of this allotment, the Hubli Irrigation Sub-Division alone is required to spend Rs.60,000/- approximately.

P-41

2. In G.R.(P.W.D.) No.3917/36, dated the 1st November 1939, three temporary Overseers as under have been sanctioned for the Hubli Irrigation Sub-Division:-

(a) One to replace the senior Overseer from the Bombay Subordinate Engineering Service placed in charge of the Sub-Division.

(b) Two for supervision of repairs to Minor Irrigation works in that Sub-Division. Of these two, one post has been held in abeyance and sanction to renew the same has been applied for in this office letter No. 1179 referred to in para 1 above.

3. The Executive Engineer, Dharwar Division, reports that even after renewal of the post referred to, it is not possible to manage efficiently and systematically all the works in that Sub-Division and a third temporary Overseer is absolutely necessary.

4. I agree with the Executive Engineer and consider that the need for a third Overseer on the temporary establishment is genuine and justified. Government may, therefore, kindly be moved to accord very early sanction to the entertainment of one more temporary Overseer on Rs.50/- P.M. for the Hubli Irrigation Sub-Division for the year ending 28th February 1942.

5. With this proposal the four temporary Overseers required in this Circle are as under:-

1 Overseer on Rs. 54/- P.M. | For the Dharwar Division upto 28th February 1942
1 Overseer on Rs. 50/- P.M. |

1 Overseer at Rs.50/-P.M. for five months for the Belgaum Division.

1 Overseer on Rs.50/- P.M. for the Kanara Division upto 28th February 1942.

I have the honour to be,
Sir,
Your most obedient servant,

Executive Engineer, Belgaum Dn
I/C current duties of the
Superintending Engineer, C.C.

PUBLIC WORKS DEPARTMENT
Rec'd. 3947/36
4- JUN 1941
Serial No. 10879

(pp.187-190 destroyed
S.no.11430 & its disposal)

3917/36/11430

Note in E.B. pp 1-18.

The main file has since been recd. and is arranged within. p.173

2. In para.3 of his letter No. M.I.7, dated the 15-5-41, the S.E. had recommended the renewal of the three posts of overseers upto the 28-2-42. The proposal p.184 has been accepted by the R.D. and the F.D. From para.5 of his letter at p. ante it however appears that the S.E. wants the tempy. overseer's post for the Belgaum Dn. for 5 months only but has recommended the apptt. of one more addnl. overseer for the Hubli Irrign. Sub-dn. The Sub-dn. has at present 3 overseers of which one overseer is in charge of the sub_dn. The p.185 (para 1) Ex.Engr. states that the anticipated expenditure (for M.I. Works) in the Hubli Irrign. Sub-dn. alone is about Rs 60,000. He p.186 (para 3) accordingly recommends the apptt. of one more tempy. overseer for the Hubli Irrign. sub-dn. upto the 28-2-42. The S.E. supports the recommendation. If the revised recommendation is to be accepted the papers will again have to be refd.u.o. to the R.D. and the F.D.

Orders are requested whether this may be done.

S.A.J.
4-7-41

A

This really means that there are only two men available for overseers work in the Sub Dn.

S.no. 11430 is a detention memo from R.D. & is destroyed with its disposal "await."

The SE's revised proposals involve only a slight increase in the establishment already agreed by R.D. & F.D.

This slight increase may be permitted in view of 'A' above.

VERY URGENT.

Budget estimates for the year 1942-43.

Government of Bombay.
Public Works Department.
Circular Memorandum No.P.42.
Bombay Castle, 14th August 1941.

GOVERNMENT CIRCULAR MEMORANDUM.

The Superintending Engineers of Circles, the Electrical Engineer to Government and the Consulting Public Health Engineer to Government are requested, with compliments, to start considering now any new schemes (recurring as well as non-recurring) they want to get included in the next year's Budget and to talk them over with the Secretary to Government, Public Works Department, and/or the Adviser (Finance) to His Excellency the Governor as soon as possible. It is probable that, unless there is a very large change in the agricultural situation and also in the war, new recurring expenditure will be very scarce next year; and any schemes put up will need careful consideration and probably only the most urgent will be got through.

2. These orders do not apply to the works financed from the Central and Provincial Road Funds.

By order of the Governor of Bombay,

R. H. HAMMETT,

Deputy Secretary to Government.

To

The Superintending Engineers of Circles.
The Electrical Engineer to Government.
The Consulting Public Health Engineer to Government.
The Executive Engineers of Divisions.

No. of 1941.

Copy forwarded for information and guidance to.

A. V. Vora,
Executive Engineer, D.Dn.

Letter No.G-108, dated the 11th July 1941 from the Executive Engineer, Dharwar Division, to the Superintending Engineer, Southern Circle, Belgaum.

Subject:- Territorial changes.

" I have the honour to report that the Hubli Irrigation Sub-Division was opened in the year 1939 as a temporary measure to cope with the increased work of repairs to the Minor Irrigation Tanks in this Division. The number of these tanks is very large and enough has already been said about their utility and necessity of keeping them in proper working order, vide this office Nos. M.I.11 and M.I.7, dated the 28th October 1940 and 12th December 1940 respectively. Government will, therefore, have to sanction the continuance of the Sub-Division on a permanent footing as recommended by the Commissioner, Southern Division. In fact they have instructed that provision should be made on that line in the establishment budget for the year 1942-43, vide their memo No.3917/36-E, dated the 7th March 1941.

2. The jurisdiction of the Hubli Irrigation Sub-Division as constituted at present extends over four talukas viz. Hubli, Kalghatgi, Bankapur and Hangal and overlaps that of the Haveri and Hubli B and R Sub-Divisions. Not only this but the area traversed is large and involves extensive travelling on the part of the Sub-Divisional Officer and his subordinates. It is, therefore, necessary to reduce it and make the-Sub-Division as compact as possible for easy and efficient working. If the overlapping is removed, the Sub-Divisional Officer will be able to devote more time and energy for the execution of works and besides it will go a great way in keeping his T.A. expenses within the small permissible limit of the travelling allowance. Similarly the jurisdiction of the Haveri Irrigation Sub-Division overlaps that of the Haveri B and R Sub-Division to some extent and this also requires removal. With this end in view my predecessor Mr. M.V.S.Murti, Executive Engineer had recommended readjustment of the Sub-Divisional

Sub-Divisional jurisdictions while applying for the opening of the Hubli Irrigation Sub-Division, vide this office No.M.I.7, dated the 22nd July 1939, but it does not appear to have met with your approval on the ground that the constitution of the Sub-Division was only temporary.

3. Now that the Hubli Irrigation Sub-Division will be sanctioned on a permanent basis as explained in para 1 above, I think, it is now high time to take up the question of readjusting the Sub-Divisional jurisdictions for consideration. In this connection I may state that I agree with the proposals made by Mr. Murti excepting that the Head-quarters of the Hubli B and R Sub-Division should be at Gadag instead of at Hubli and some other minor changes. Gadag becomes a more central place to all the works in that Sub-Division and it would be very convenient for the Sub-Divisional Officer to supervise them from that place. Besides Gadag being a taluka place and a big commercial centre it has got all the amenities as Hubli and the Sub-Divisional Officer will have no difficulty of any kind. I append herewith the following documents showing the details of my proposals :-

Wb 1-3

(1) Statement "A" showing the extent of Sub-Divisional charges as now proposed.

Wb 5-9

(2) Statement "B" showing the proposed sub-charges in each Sub-Division.

Wb 11-13

(3) Statement showing the Sub-Divisional charges as existing at present.

Wb 15-19

(4) Statement showing the sub-charges as existing at present in each Sub-Division.

(5) An Index map showing the revised jurisdiction as now proposed.

4. Under the circumstances mentioned above, I request you to kindly move Government to sanction the changes as early as possible. In case they are approved, they will be given effect to from the commencement of the next financial year to avoid complication in accounts.

5. The new Village Water Supply Sub-Division being only temporary for two years, I have not taken it into consideration in formulating the proposals ".

Below letter No.G-108, dated the 11th July 1941, from the Executive Engineer, Dharwar Division.

***

No.G-108

Public Works Department,
C/V Belgaum, 7th August 1941.

Copy, together with copies of the accompaniments forwarded, with compliments, to the Secretary to Government, Public Works Department, Bombay.

2. Undersigned is of the opinion that the proposals made by the Executive Engineer are sound in themselves as with the proposed changes, all the five Sub-Divisions in the Division would be compact resulting in increased efficienc of management of the road, building and irrigation works.

3. At Hubli there are at present two Sub-Divisional Offices, one for Roads and Buildings and the other for Irrigation, which latter is located in a hired building, for which a monthly rent of Rs. 20/- is paid. By removing one of the offices to Gadag as now proposed, there will be a recurring annual saving to Government to the extent of Rs. 240/- at present paid as office rent, as the previous Sub-Divisional Office at Gadag, which is vacant would be available. There are also the quarters for the Sub-Divisional Officer, which building is being used at present as Overseer's quarters.

4. Moreover, by the proposed change, the number of Overseers in the Dharwar Sub-Division will be reduced from 4 to 3 as one of the three sections is now proposed to be entrusted to the half time Archaeological Overseer stationed at Dharwar.

5. From Government Memorandum No.3917/36-E, dated the 7th March 1941, it is believed that there is every liklihood of the Hubli Irrigation Sub-Division being made permanent with effect from the 1st March 1942. On this assumption, it is recommended that Government may kindly

be moved to approve of the proposed territorial changes subject to the proviso that they should be introduced as soon as it is finally decided that the Hubli Irrigation Sub-Division should continue on a permanent basis.

L. C. Greening. 1.8.41.

Please see letter from the Ex. Engr., Dharwar Dn., and the remarks of the S.E., S.C., thereon on pp. 21-24 ante.

2. At present the Hubli R.& B.Sub-dn. and the Hubli Irrign.Sub-dn. have their headquarters at Hubli. The proposed re-arrangement of Sub-dns. in the Dharwar Dn. involves inter alia the shifting of head-qrs. of one of the Sub-dns. from Hubli to Gadag. The rearrangement is proposed on the understanding that the tempy. Hubli Irrign. Sub-dn., whose present sanction expires on the 28-2-42, will be made pt. from the 1-3-42. In fact the S.E., S.C., has recommended the proposed re-arrangement on this assumption and has observed that it should be approved subject to the provision that it should be introduced when it is finally decided that the Hubli Irrign.Sub-dn. should be continued on a pt. basis. In its note, dated the 25-2-41, the F.D. has observed that the question of retaining the Sub-dn. on a pt. basis can be considered in its proper perspective only at the time of framing the budget estimates of 1942-43 when it should be placed before Govt. as a new item. The S.E.,S.C., has accordingly been asked to include the item as a new item of expdre. in the next year's budget estimates with detailed information in the matter - vide G.M. No.3917/36-E, dated the 7-3-41. This will be dealt with on its receipt in due course. It cannot, however, be stated at present whether

whether Govt. will agree to continue the Sub-dn. on a pt. basis. Attention, in this con., is invited to the second sentence in para.1 of G.C.M. No.P.42, dated the 14-8-41, which is based on A(F)'s note in the matter. In the circumstances and in view of the observation of the S.E. S.C. refd. to at 'A' overleaf perhaps these papers may be kept in await till the decision in the matter of permanency of the Hubli Irrign. Sub-dn. is known.

Memo.

Subject:- Territorial changes in the Dharwar Divn.

With ref. to his endorsement No. G. 108, dated the 1-8-41, the S.E., S.C., is informed, with compliments, that as Govt. has decided to provide for the continuance of the Hubli Irrgn. Sub-Divn. on a tempy. basis in the ensuing year's budget, the question of re-arrangement of the Sub-divns. in the Dharwar Divn. does not arise at present.

Belgaum, 22nd January 1943.

Subject:-Continuance of the Hubli Irrigation Sub-Division during the year 1943-44.

Reference G.R.(P.W.D.) No.3917/36-E, dated the 14th January 1942 and G.R.(R.D.) No.P.42/10426-F, dated the 8th May 1942.

2. The existing sanction for the continuance of the Hubli Irrigation Sub-Division ends on the 28th February 1943.

3. In the Draft Establishment Budget Estimate for the year 1943-44 submitted to Government under this office No. G-19/1, dated the 17th September 1942 through the Commissioner S.D., the necessity of continuing the Hubli Irrigation Sub-Division on a permanent basis from the 1st March 1943 has been fully explained.

4. It is, therefore, requested that Government may, in

your concurrence, be moved to accord sanction to the continuation of the Hubli Irrigation Sub-Division from the 1st March 1943 for such period as Government may deem fit.

W. C. Greening. 22.1.43.

Office of the Commissioner, S.D.
Belgaum, 25th January 1943.

Submitted for early orders, with reference to this office endorsement No.P.W.D.P.R.B., dated 21.9.1942.

28/1/43.

Commissioner, S.D.

Public Works Department.

F.B. Note.

When the Hubli Irrgn.Sub-dn. was sanctioned the S.E.,S.C.,had recommended its formation upto 28-2-41; Govt. however sanctioned it upto 29-2-40 and directed that if the repair work was not completed by that date, as estimated by the Commnr., S.D., the S.E.,S.C. should ask for sanction to the continuance of the sub-dn. with full justification therefor The continuance of the sub-dn. has been since sanctioned from time to time upto 28-2-43 on which day it ends. The question whether this sub-dn. should or should not be made permanent was discussed some time back and it was decided in consultation with the F.D. that it is desirable to continue the sub-dn. on a tempy. basis on annual sanction. Provision regarding required for the continuance of the sub-dn. on tempy. basis during the year 1943-41 has been made under " 18 - A Civil ".

2. In the circumstances, the S.E's. request to continue the sub-dn. after the 1-3-43 which is supported by the Commnr.,S.D. may be sanctioned for a further period of 1 year i.e. upto 29-2-44 in consultation with the F.D. and the F.D. as per draft put up.
